

STILO60

The STILO product family continues to grow

Manageable

Rotating crimping head 360° for optimal compression in any position

Ergonomic

Effortless working and ease handling thanks to equilibrate 2-component handle

Powerful

18V 1,5 Ah Lithium-Ion battery for even more pressings of one battery life

Automatic return

At the end of the crimping cycle

Intelligent

Multifunction LED to indicate the maintenance intervals (20.000 cycles)

news.intercable.com

Technical Characteristics

- Lightweight, compact and robust frame
- Rapid advance three-piston axial pump
- Emergency manual return
- Multi-function electronic system with sleep mode, maintenance and battery check indicators
- Ergonomic design provides easy operation for both left- and right-handed users
- LED display indicates battery level and malfunction
- All cycles and error messages read via USB
- Voltage: 18V DC - 1,5Ah, Charge time approximately 30 min.
- Battery state control is readable directly on the battery by led lights
- Operating temperature range: -10°C / +40°

Compression section	6-300 mm ²
Compression force	60 kN
Head rotation	360°
Head stroke/opening	17 mm
Battery voltage	18 V
Tool weight (incl. battery)	ca. 3,3 kg
Tool dimensions	380 x 125 x 80 mm

Description	order no.	dimensions	weight
Battery powered crimping tool	STILO60	560 x 357 x 118 mm	6,3 kg

Set equipment & accessories

Set equipment

- ▶ Plastic case
- ▶ Plastic case for crimping dies
- ▶ Battery charger
- ▶ Instruction manual

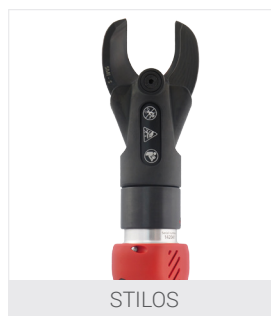

Accessories (optional)

- ▶ NG3 - Adapter for mains operation 230V-18V

The STILO family

STILOS

STILO45

STILO50
